# Assignment 4

## Write the shell script for following:

1. to check if a file exists if yes then write "hello world" in the file if no then create the file and then write "hello world" line.

2. To make a directory after checking of its existence.

3. to read the contents of a file and display it line by line in command prompt. (Hint: use *read* command to read the file contents.)

4. to check two file contents are same. ( Hint: use *cmp or diff* command )

5. to write the following contents in a file:-

   cat

   dog

   bear

   hello

   elephant

   hello

   tiger

   hello

   horse

   and then delete the lines containing the word "hello" and display the file. (Hint: use *grep* command)

Submit the program/script file and a screenshot of the output for each assignment, give proper name eg., prog-1.sh, screenshot-1, prog-2.sh, screenshot-2 etc....
